Total Savings - Trøndelag Sparebank

Some comparisons to give you a better understanding of what you have achieved

Total kgCO₂e saving

 **11,109**

This saving is equivalent to travelling 45,531 km by plane. Which is roughly the same as flying all the way around the world 1.14 times.

Actual distance around the Earth is 40,076 km

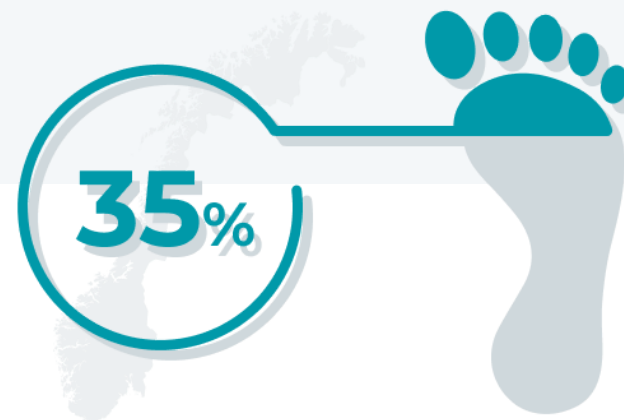

Average participant saving

 **157**

If everyone in Norway did this, that would amount to a 35% reduction in Norway's total greenhouse gas emissions*.

* Norway's greenhouse gas emissions are 54 million tonnes CO₂e per 2015. Source: Statistics Norway
